

Dated 14/09/2025

“CERTIFICATE FOR STRUCTURE STABILITY “

This is to certify that, we have submitted structure Stability and design report of Laxmi Tara Rathour Modal Public School at Sailba, Punjab.

We hereby confirm that structure design is under the guidelines of Indian relevant IS design Codes which ensure the stability of structure.

I have visited the school campus site for visual inspection on request for distressed members if any, and confirm that construction adheres to NBC, hence, capable of withstanding anticipated loads and natural hazards (like earthquakes, wind, etc.).

Thanks, and Regards
